UAV World International Exhibition for UAS ■ Conference

The international UAS industry at one place

UAV World presents the innovative topic UAS – unmanned aerial systems in a special combination of exhibition and conference. It offers manufacturers of UAS, suppliers, equipment manufacturers, scientists from universities and representatives from governmental institutions an excellent networking and communication platform to generate new contacts, strengthen existing partnerships, hold technical discussions and initiate new projects.

UAV World...

- > opens up new business, contact and cooperation opportunities
- > encourages the exchange of information about new technologies and current developments in the UAS industry
- > supports the dialogue between manufacturers of UASs, of the supply and equipment industry to users and to scientific universities

Benefits of UAV World

- > clear focus on UAS
- > professional individual atmosphere
- > excellent exhibition environment and infrastructure
- > short, highly efficient exhibition duration
- > conveniently accessible location, centrally in Germany

Range of exhibits

- HALE = High Altitude Long Endurance
- MALE = Medium Altitude Long Endurance
- Micro UAVs < 3 kg
- UAV 3 kg – 500 kg
- Controls
- Data Transmission
- Engines
- Sensors
- Structures, Materials
- Subcomponents
- Systems
